

## Charon on Oracle Cloud

Charon on Oracle Cloud is the first cross-platform server emulation solution for Oracle Cloud. With this solution, businesses can migrate SPARC, VAX, Alpha, and PA-RISC critical applications to the Oracle Cloud, taking advantage of the same reliable Charon technology for which Stromasys is renowned as well as the many benefits offered by Oracle Cloud

### THE BENEFITS OF CHARON ON ORACLE CLOUD:

#### • LOWER MAINTENANCE COSTS

- Replace unreliable hardware with the reliability of Oracle Cloud—eliminating those hardware maintenance costs completely.

#### • ULTRA-FAST BACKUPS

- Benefit from high-speed backup and recovery available on Oracle Cloud.

#### • ELIMINATION OF RELATED CAPITAL EXPENDITURES

- Eliminate the hardware to replace capital expenses with operating expenses, making IT projects and budgets less daunting.

#### • HIGHER AVAILABILITY

- Nearly 100% availability, removing risk of downtime due to hardware failure.

#### • CLOSE RELATIONSHIP WITH ORACLE

- Businesses emulating SUN SPARC hardware have the ability to maintain their long-time close relationships with Oracle by virtualizing to the Oracle Cloud.

### PLUS ALL THE BENEFITS OF CHARON SOLUTIONS:

#### • REDUCED RISK

- Eliminate the risk of unplanned downtime due to hardware failure.
- Avoid application porting risks: original apps continue to run without modification.

#### • LOWER COSTS

- Reduce costs of administration and maintenance by eliminating legacy hardware.
- Lower cost than full migration and often less than a single year's support of the classic hardware.

#### • PERFORMANCE IMPROVEMENTS

- Experience possible increases in application speed; complete tasks in less time.

#### *About Oracle Cloud*

Oracle Cloud is the industry's broadest and most integrated public cloud, offering a complete range of services across SaaS, PaaS, and IaaS. It supports new cloud environments, existing ones, and hybrid, and all workloads, developers, and data. The Oracle Cloud delivers nearly 1,000 SaaS applications and 50 enterprise-class PaaS and IaaS services to customers in more than 195 countries around the world and supports 55 billion transactions each day.

## IMPLEMENTING CHARON ON ORACLE CLOUD

With Charon on Oracle Cloud, your original applications, databases, and operating system remain unchanged. There is no modification or recertification required. The original hardware is eliminated, and your applications run as usual on Oracle Cloud, with our Charon solution as the translation layer that makes it possible.
